Orr Partners Completes New NADA Office

Reston, VA (February 19, 2019) — **Orr Partners**, an industry leader in project management and owner's representation services, recently completed the headquarters for the National Automobile Dealers Association (NADA) in Tysons, Va. NADA has been headquartered in Tysons for 40 years, and while their previous office building had served them well, it no longer met their corporate needs. As a result, NADA executed a lease for 63,000 SF over two floors (4th and 5th) at 8484 Westpark Drive and engaged Orr Partners to lead the interior build-out of their new space.

Stantec Architecture was contracted for the interior design, which incorporates materials, colors, and textures that mimic a luxury car interior. The new HQ, built by rand* construction, largely consists of open workspace surrounded by perimeter offices, and features an interconnected stairway to promote movement between the two floors. In addition, huddle rooms and various-sized conference rooms are scattered throughout both floors to promote collaboration. The NADA Academy, a member-oriented course for current and future automobile and truck dealers, encompasses four large classrooms on the 4th floor.

"It was an absolute pleasure working with NADA and the project team," stated Scott Siegel, President. "NADA has an amazing space that will serve their members and employees well for years to come."
